Praeses Employees Earn Technology Certifications

Shreveport-based technology company's developers receive Microsoft and CISSP certifications

SHREVEPORT, LA – June 10, 2010— Praeses, a national leader in providing trusted information management services, recognizes three employees that have received various Microsoft certifications as well as a Certified Information Systems Security Professional (CISSP) certification.

Recipients of the certifications were Praeses software developers employed in the Jurisdiction Online Products group and the Information Technology Consulting team. Employees received the following:

- the Microsoft Certified Information Technology Professional: Database Developer for SQL Server 2005;
- the Microsoft Certified Technology Specialist: .NET Framework 2.0 for Windows-Based Client Development; and,
- the CISSP certification.

The Database Developer certification recognizes an individual as a professional database developer who designs and implements programming objects, optimizes databases, and designs databases at the conceptual and logical levels.

Another developer received the “Utilizing Microsoft Visual Studio 2005, the .NET Framework 2.0 certification,” which recognizes the individual as a professional developer in Windows-based applications, specifically the Microsoft .NET Framework.

The CISSP is a certification for professionals that develop policies and procedures in information security. As the first credential in the field of information security, this certification is accepted as the industry’s global standard due to its stringent requirements.

“We are very proud of our developers and urge them to further develop their technical skills as the information technology industry faces constant and rapid change,” said Jacques Couvillon, Jurisdiction Online Products group business manager. “We encourage our team to strive for new certifications, budgeting both money and hours for training and achieving certifications. We pride ourselves in the professionally motivated talent we attract and retain at Praeses.”

Col. (Ret) Kevin Smith, Praeses Government Contracting manager, stated, “We congratulate these individuals and their achievements. As a highly revered certification, the addition of the CISSP to our credentials is exciting. We look forward to utilizing the potential it affords us in our information security pursuits for our clients.”
