Praeses Nominated for Governor's Technology Award

Previously Awarded Best Application of Technology by Louisiana Technology Council

SHREVEPORT, LOUISIANA – September 17, 2012 – Praeses, a national leader in providing trusted information management, technology consulting, and software development, announced today that it has been nominated for a Governor's Technology Award as a result of being awarded the *Best Application of Technology* designation earlier in the year by the Louisiana Technology Council for its Nuclear Enterprise Tracking System (NETs).

On September 19, Praeses CEO, Frank Auer, will attend a special luncheon in Baton Rouge, hosted by the Louisiana Technology Council and the Louisiana Economic Development, where the recipients of the awards will be announced. The awards are designed to recognize and celebrate the accomplishments of technology companies' innovation and progress over the past year.

"As one of the leading technology companies in the state, we are very honored to have been recognized by the Louisiana technology community," stated Frank Auer, Chief Executive Officer at Praeses. "As we grow technology jobs in the Shreveport area and increase the technology focus in our state, it is an added bonus to be recognized for our successes."

The banquet, sponsored by Cox Business and Century Link, will feature Lt. Governor Jay Dardenne as the keynote speaker. Also in attendance will be other eWard winners from the Shreveport, Lafayette, Baton Rouge, and New Orleans regions. The event will be held at the L'Auberge Casino Hotel in Baton Rouge, Louisiana.

About Praeses

Offering proven and consistent business success through a unique combination of people, process, and results, Praeses is a leader in information management, technology consulting, and software development. Its client base of local, national, and international organizations includes small businesses, Fortune 100 companies, state and local governments, and the Department of Defense.
